ANOTHER CASE OF INSTANT DEATH FROM AN ELECTRIC SHOCK.

Young Frederick Witte Touches a Low Hanging Lamp in Front of a Bowery Store With Fatal Result-The Subway Commission Has Power to Regulate the Hanging of These Lamps in the Streets.

Another case of homicide, for which some body should be held legally responsible, occurred at 200 Bowery last evening.

Frederick Witte, aged twenty-three years. a clerk for his uncle, L. Schlessinger, whose tailoring establishment is at the number mentioned, was the victim. He had been in the habit of touching one of three electriclight lamps which bung within easy reach in front of the store and receiving slight shocks. Although warned frequently not to handle the lamps, he grasped one of them last evening and in an instant the subtle fluid had

coursed through his body and he was dead. He clung to the framework for nearly a minute, during which time his contortions were dreadful to behold. It was discovered after the body was removed from the Elizabath street station-house to Undertaker Slevin's, in Spring street, that the violence of the muscular movement had dislocated the

The lamp was on the circuit of the United States Illuminating Company, but none of the officials of the Stanton street plant of the company would talk with an EVENING WORLD who sought to interview them con cerning the danger of low-hanging electric

cerning the danger of low-hanging electric lamps.

Killing by electricity is becoming too frequent of late to be called accidental. Coroner Nugent, who has the case, is expected to thoroughly investigate and see that the criminal negligence is charged on the responsible parties.

In the Bowery and on the west side in particular there are hundreds of electric lights hung within easy reach of any person of ordinary height. Some of them are so low that a tall man could not pass under without coming in contact with them.

Some of the more dangerous are those in front of Nos. 10, 12, 22, 32, 32, 52, 57, 74, 82, 103, 105, 110, 130, 142, 160, 170, 177, 178, 198 and 204 Bowery.

morning.

There is no municipal ordinance or State statute regulating the hanging of electric

lamps.

The Subway Commission have full control of this matter and can require the necessary protection to life on the part of the electric lighting companies, but Mayor Hewitt has obstinately blocked all efforts of the commission to perform its duties conferred by statute.

tte.

If the Subway Commission fails to act, there is a splendid chance for some Albany legislator to do a grand act for humanity by securing the passage of a law that will compel the electric lighting companies to have some regard for human life.

## SELLING OFF ITS OLD FURNITURE.

The New York Club Disappears From Its Old Hendquarters in Madison Square.

The last traces of the New York Club disappear from its old headquarters at Broadway and Fifth avenue to-day. The club in the future will be housed in its new spacious quarters at Fifth avenue and Thirty-fifth

street.

Nearly all of the club's old furniture was sold this morning at its old home under the auctioneer's hammer. It consisted largely of parlor, reading-room, library and billiard-room furniture, kitchen and laundry utensils, beds, bedding, carpets and miscellaneous articles.

articles.

The sale began in the basement of the building with the selling of four plain tables for 50 cents, and continued throughout the rooms until the top story had been reached and its contents disposed of. The number of bidders was small, and but little interest was manifested over the prices offered for the articles.

## COMIC OPERA ALL DAY LONG.

#### Circus Man Doris Wants to Give Nine Performunces a Day All Summer.

John B. Doris, the circus man, floated into the Union Square Hotel yesterday big with a portentous scheme for the summer.

"I am negotiating for Huber's place, in Fourteenth street," he said, "and want to run cheap comic opera there during the summer, the prices to be 10 and 20 cents. There's thousands in it, I think, and I am willing to to go deeply into the venture, pr. ducing such operas as 'Patience,' 'Pinafore' and 'The Pirates,'''

Pirates.'"

"And giving two performances a day, I suppose?" Mr. Doris was asked.

"Two performances!" he exclaimed.

"Why, that wouldn't pay the expenses of the orchestra. I intend giving nine performances each day, keeping the place open from 10 A. M. until 10 P. M. There is not one of the operas I have mentioned that cannot be given in an hour. Oh, I think it's a great scheme—if I can only get Huber's!"

## NO TRACE OF DODO OR ALICE.

Mr. Gerry's Agents Still Searching for Them -What Pearl Eytinge Says.

The statement made exclusively in THE EVENING WORLD as to Lawyer Marsh's search for Ann O'Delia's children was emphatically true. Little Alice and Dodo are still missing, and the officers of the Society for the Prevention of Cruelty to Children can obtain no clue to their whereabouts.

President Elbridge T. Gerry was seen at the Society's office this morning by an Even-Ing World reporter. He said it was quite true his men were very anxious to find the Diss Debar children, but he was very sorry the matter had got into the newspapers.

"That woman is very shrewd," he said, referring to Ann O'Delia, "and now that she knows we are in search of the children she will stop at nothing to keep them out of our way."

knows we are in search of the children she will stop at nothing to keep them out of our way."

Mr. Gerry also confirmed the statement that the society is acting at the instance of Mr. Marsh.

"Upon what grounds can the society or Mr. Gerry interfere in regard to the children?" was asked.

"In the first place," Mr. Gerry replied, "we believe the woman Salomon or Messant or Diss Debar is not fit to have charge of young children. Then it is charged that they have been treated unkindly, and even cruelly. There is a law to reach such cases, and, while the society does not act thought-lessly or in disregard of any one's rights, we propose to act vigorously in a case like this. First we want to find the children. After we have found them I will tell you more."

Pearl Eytinge Yard, the actress, lives on the top floor of 24 Union square. She hires a single room off Mrs. Samuels, who rents the flat. She said to the reporter to-day:

"It is not true that I have the children in my keeping; neither do I know where they are. Last Monday morning, before Mr. Marsh sent Alice and Dodo away from his house. I brought them here and tried to get Mrs. Samuels to let them stay with me, but my landlady said she had no room for children. I then took them back to Mr. Marsh's house.

"You may say," continued Mrs. Yard.

dren. I then took them back to Mr. Marsh's house.

"You may say," continued Mrs. Yard.
"that I have done with Mme. Diss Debar. She has treated her children badly, and I now know that she cannot tell the truth. She is a bad woman, and I will never go to see her again. The next time I have a philanthropic impulse I will repress it."

In explanation of this outburst on the part of Miss Eytinge, it may be stated that the latter had a stormy interview with Ann O'Delia in her Tombs cell this morning. Mr. Marsh's fat priestess was in a dreadful passion and accused Pearl Eytinge of telling the reporters lies about her.

Howe & Hummel say they hope Mr. Gerry will find the children, especially Alice or Lola, the elder girl, as Mr. Marsh testified on the stand that she helped her mother to produce spook pictures.

## GOV. HILL NOT ALARMED.

### HE WILL GO BEFORE THE COMMITTEE IF WANTED.

In Town to be Present This Evening at the Presentation of Flags to the Sixty-ninth Regiment-He Doesn't Care to Talk, but Friend Intimates What the Investigating Committee Was Appointed For.

Gov. Hill had numerous callers at the Hoffman House to-day, but only a few of his personal friends had a chance to see him. He told an Evening World that he did not wish reporter to be interviewed on any subject as he had nothing to say of public interest. In alluding to the continuation of the Senatorial investigation, however, he remarked:

"I am only too willing that any man who thinks he has any evidence against me shall go on the stand and testify. I have nothing to fear and nothing to keep back."

The Governor appears to be in the best of The Governor appears to be in the best of health and the investigation does not seem to have given him any trouble or worriment. Several of his friends, who were present when The EVENING WORLD reporter was talking to him wanted to know if the Republican Senators had not become tired of their attempt to strike at the Governor. Said one of the friends: "So far they have not unearthed anything and the only witnesses who have mentioned the Governor's name were witnesses who contra-

Squire was removed by the Governor Flynn was Squire's friend, and every one knows that Ivins represents ex-Mayor Grace, who has always been opposed to the Governor and his administration.

"But what evidence have even these men given? I am astonished that the committee should have given any importance to their testimony. But the committee was appointed to throw mud at the Governor."

Gov. Hill will present an American flag to the Sixty-ninth Regiment this evening at Madreen Square Garden. The flag is the gift of Rev. Dr. Croke, Archbishop of Cashel, Ireland. At 10.30 p. at., he is to be serenaded by the Volunteer Firemen's Association at the Hoffman House, Bayne's Band will furnish the music and 3,000 vetaran firemen will participate in the serenade.

Jefferson Coolidge, Henry W. Putnam and Francis C. Lowell, have reached the conclusion that to remedy the existing evils it is necessary to prohibit all intercollegiate contests and to place the supervision of athletic exercises in the university itself, under the control of a committee in which the Faculty shall have a stronger influence.

They therefore recommend the adoption of the following rules:

Voted—That the faculty be requested to prohibit Mr. Flynn said:

I am a member of the firm of Guy C. Hotchkies, field & Co. in the foundry and machine business, their principal susiness since 1875 being supplying the Public Works Department. In 1877 I was a member of the Committee of One Hundred organizing the County Democracy, and was after that till 1885 engaged in boilities. Since 1885 I have been devoted entirely to business. I think it is generally supposes that my contract business with the department has been much greater than it has been, and I desire to relate my whole connection. Mr. McNaughton objected to Mr. Flynn's beginning its story "In 1875," as that could not have anything to do with the Aqueduct.

He was overruled, and Mr. Flynn went

He was overruled, and Mr. Flynn went on:

In 1815, when Gen. Fits John Porter was Commissioner of Public Works, we received our first captract. In 1877, when Campbell was Commissioner, we did \$50,000 worth of work; under Thompsen, 250,000 and under Gen. Newton \$20,000. Our fotal since 1875 and up to Sept 1, 1877, was only \$60,000. Gen. Tracy—Was that famous Squire letter addressed to you? A. It was addressed to ms, but without my consent. I first heard of it the day after it was written. Mr. Squire met me and asked me if Mr. Thompson had given ms a letter which he had written at the Worth House the day before by dictation of Thompson. I told him I had not need that the worth House and told him I could not seem it, and that he was a fool to write it; that if Mr. Thompson couldn't trust him without writing he couldn't trust him nayway. I saw Mr. Thompson at the Worth House and told him I could not allow the use of my name in Squire's letter, and that if Mr. Thompson wasted auch a letter it should be addressed to him, not to me.

Mr. Squire said Thompson didn't want the letter addressed to him tecause he was Commissioner of Public Works.

Next day I told Thompson that I would exert all my influence with Squire to keep him from going before Mayor abson till that letter was destroyed. Mr. Squire nad had his conference with Judge Gildervieeva. He dastroyed the letter by barraing it, taking a match to do it.

Mr. Flynn said that one reason why Squire subject to the authority of the faculty.

They also believe that competition between the various classes in the university is to be commended and heartily encouraged.

H. O. Walcott dissents from the opinion of the majority and submits a report which hethinks will tend to promote a better feeling in the athletic world of Harvard College. He does not join in recommending the total abolition of all the intercollegiate contests, but does advise that they be regulated in the following manner:

Mr. Flynn said that one reason why Squire became prominent was that he had been engaged in trying to get Gen. Butler to get out of the canvass and fall in for Cleveland.

Mr. Flynn next told about getting Squire out. He said:

out. He said:

The first I heard of the attempt to get Squire's resignation was in April or May, 1885. It was at at the merchants' dinner to Roberts at Deimonloo's. Mr. Thompson said to me, "Why don't you set Squire to resign and take him along with year to Europe. He is a ratile-brained fellow." I replied that Mr. Squire didn't care about the office, and that if Mr. Thompson would go to Squire's counsel and ask for Squire's resignation he would get it.
